Gala Dinner

Evening 27th November

Gala Dinner 19:30

Welcome address

Mr Njabulo Mabuza (Swazi Minister of Health and Social Welfare)
introduced by Busi Bhembe (Baylor Swaziland)

Keynote speech—Raising the Bar: Case Detection and Treatment of Children with HIV & TB.

Joia Mukherjee (PIH)
introduced by Paul Roux (PATA Co-founder)

Team introductions:

David Altschuler (PATA Co-founder)

Day 1:28TH November**Performance: Feedback on Projects,****Monitoring & Evaluation of Progress**

08:00–09:35	Morning Plenary: From PATA HQ: Process and Progress	Paul Roux & David Altschuler
08:40–09:35	From the Field: Achievements & Challenges Our Expert Patient Programme A Swazi Experience From the Side of the Lake	Sara Stulac (PIH, Rwanda) Busi Bhembe (Baylor Swaziland) Charles Munthali (Nkhata Bay, Malawi)
09:45–10:20	Quality Assessment: An Example from the Real World	Robert Gass (UNICEF) & Carol Baker (Keiskamma Health, Hamburg, SA)
10:20–10:30	PATA 2007: The Next Three Days	Stephen Rollnick (University of Cardiff, Wales)
10:45–12:30	Workshop 1 in Professional Groups	Introduction by facilitator Small group work Mini-plenary
13:30–15:00	Workshop 2 in Treatment Teams	Introduction by facilitator Work in teams Mini-plenary in regional groups
15:30–17:00	Afternoon Plenary	Panel of observers Team stories Open Forum
17:30–19:30	Parallel Masterclasses: Masterclass 1a The Adolescent Masterclass 1b TB/HIV	Shelley Horwitz, Lisa Karp, Donna Futterman Ben Marais, Helena Rabie, James Nuttall
20:00	Dinner and Guest Speaker	Chewe Luo (UNICEF)

Day 1 Workshop Questions**Workshop 1 (In Professions): Small Groups**

- 1.1 What has worked well for you in the team and in the service this last year?
- 1.2 What were the main challenges?

Mini-Plenary in Professional Groups

- 1.3 What are your main concerns as a profession?
- 1.4 What strategies work best to overcome these challenges?

Workshop 2 (In Teams)

- 2.1 What have we heard about in our professional groups of the achievements of other teams?
- 2.2 What would we like to attempt in our own team for the next PATA year?
Implications for the team grid.

Mini-Plenary in Regional Groups

- 2.3 Be brave with 'What went well'

Simultaneous interpreting available in French, Portuguese & English throughout the 2007 PATA Forum

Priorities: The Adolescent**Tuberculosis & HIV****Day 2**29TH November

08:00–09:15	TB/HIV Plenary: TB Infection Control Preventative Chemotherapy TB/HIV Drug Interactions	Ben Marais (Ukwanda Centre, University of Stellenbosch, SA) Helena Rabie (Tygerberg Children's Hospital, University of Stellenbosch, SA) James Nuttall (Red Cross Children's Hospital, University of Cape Town, SA)
09:25–10:30	'The Adolescent' Plenary: Adolescents and their Care: Personal, Provider, and Psychiatric Considerations	Licia Karp (Dept. of Child & Adolescent Psychiatry, Red Cross Children's Hospital, University of Cape Town, SA) Donna Futterman, (Albert Einstein College of Medicine, New York, U.SA) Renee Nassen (Dept. of Child & Adolescent Psychiatry, Red Cross Children's Hospital, University of Cape Town, SA) Des Michaels (School of Child & Adolescent Health and Dept. of Public Health & Family Medicine, University of Cape Town, SA)
10:45–12:30	Workshop 1 in Professional Groups	
13:30–15:00	Workshop 2 in Treatment Teams	
15:30–17:00	Plenary	Panel of Observers Team Stories Open Forum
17:30–19:30	Parallel Masterclasses: Masterclass 2a The Adolescent Masterclass 2b TB/HIV	Shelley Horwitz, Lisa Karp, Donna Futterman Ben Marais, Helena Rabie, James Nuttall
20:00	Dinner followed by a Movie	'Keiskamma: A Love Story'

Day 2 Workshop Questions**Workshop 1 (In Professions)****Workshop 1a The Adolescent**

- 1.1 Through the eyes of your professional group, how do you feel about the way you help the Adolescent? What would help to improve your service?

Workshop 1b TB/HIV

- 1.2 Through the eyes of your profession, what is the impact of TB on your service? What would help to improve your service?

Workshop 2 (In Teams)

- 2.1 Looking back on the plenary talks, master classes and this morning's workshops, how might our team improve its service for children with TB/HIV and the Adolescent?

Simultaneous interpreting available in French, Portuguese & English throughout the 2007 PATA Forum

08:00–08:30	Plenary: Communication Styles: More flexible, better for health	Stephen Rollnick (University of Cardiff, Wales)
08.30–09.35	Calls from everyday practice From our service From our hearts: In conversation with practitioners	Alice Nyiramana, (PIH, Rwanda) Claire Penn (University of the Witwatersrand, SA) and Jenny Altschuler (Formerly Tavistock Clinic, London, UK)
09.45–10.05	Growing up together in teams	Diane Melvin (St Mary's Hospital, London, UK)
10:05–10:30	Our Action Plan for Next Year	Robert Gass (UNICEF) in conversation with Carol Baker (Hamburg Clinic, SA)
10:45–12:30	Workshop 1 in Professional Groups	Introduction by facilitator Individual tasks Small group work Mini-plenary
13:30–15:00	PATA Marketplace	
15:00–16:15	Workshop 2 in Treatment Teams	
16:30–18:00	Plenary	Panel of observers Team Stories Open Forum
20:00	Boma Dinner with Entertainment	

Day 3 Workshop Questions

Workshop 1 (In Professions): Alone

- 1.1 Look at the questions on the handout. How has this affected you?
- 1.2 Do you tend to get too close to the problem, back away, or what?
- 1.3 What do you think might be helpful to you?

Small Groups

- 1.4 What have you found helpful in coping well with different challenges in patient care?

Mini-plenary

- 1.5 What strategies can we adopt to ensure that we not only survive, but thrive?

Workshop 2 (In Teams)

- 2.1 What tasks are worthwhile and achievable?
- 2.2 Complete grids, choosing process and outcome indicators
- 2.3 Draw up timelines for progress on tasks
- 2.4 Personal commitment to specific tasks

08:00–09:30	Breakfast Session	Chaired by David Altschuler
	Reflections and thoughts on the strategic role PATA can play in the future	Strategic Partners
	Open Microphone	All PATA Teams
	Commemorating World AIDS Day	

PATA 2007/8 Team Grid

Team Name: _____

Time Period	Item	Description of Task	Sign(s) of Progress	Name of Person Responsible
Within the next 3 months	1			1
	2			2
	3			3
	4			4
Within the next 6 Months	1			1
	2			2
	3			3
	4			4
Within the next 12 Months	1			1
	2			2
	3			3
	4			4

On a Grid like this, each team will list tasks to be taken on during the next year and completed within 3, 6 or 12 months.

Session 1 (morning plenary)

Session 1 will comprise of presentations by faculty members, leading practitioners and thinkers, setting the tone and agenda for the day.

Session 2 (morning workshop)

During session 2 workshops professionals from the same disciplines (pharmacists, nurses, counsellors and clinicians) will be divided into teams to work on the set tasks. Following this, still within their professional grouping, the small groups will provide feedback to their professional group within a mini-plenary. Facilitators will assist teams.

Session 3 (afternoon workshop)

In the session 3 workshops, members of all four disciplines will meet in their original treatment teams of 4 in regional groupings. The team member from each profession will present the morning's input to his / her team. The team will then answer the workshop question(s).

Session 4 (afternoon plenary)

During the afternoon plenary, selected participants and observers will provide workshop and mini-plenary feedback to the whole audience.

Sharing in Plenary Sessions

A whiteboard will be placed at the front of the main plenary venue for teams to sign up on should they wish to share their learnings from a particular day within the main afternoon plenary sessions. Presentation time will be restricted to a maximum of 3 minutes each for 5 teams per day. This whiteboard will be available from lunch time each day. Each team will be allowed 1 opportunity to share in the main plenary. For ease of translation, a script of the presentation needs to be drafted by afternoon tea time.

Masterclasses

The Masterclasses will be highly interactive, learning-focused workshops concentrating on specialist areas, led by recognised leaders in that field. This year there will be two streams of masterclasses, focusing on TB/HIV and The Adolescent with two consecutive masterclasses each. These will be held on the evenings of Day 1 and Day 2. Participants who sign up for the masterclasses, will attend both sessions for their respective topic.

The PATA Marketplace on Day 3 is an opportunity for teams to showcase exciting activities in their clinic and to share experiences so that clinics can learn from each other and be inspired to embark on new projects in their own clinics. Brief presentations from participants will be followed by 15 minutes of discussion time.

Confirmed Marketplace Presentations

Kate Gray (Kidzpositive, SA)	Income Generation	The Positive Beadwork Project
Jenny Watermeyer & Claire Penn (Wits University, SA)	Communication	Communication Skills Training for ARV Pharmacists
Dr T G Prithiviraj (QE II Hospital, Lesotho)	Volunteerism	Challenges and Constraints Facing Volunteerism
Tumie Maneli (Grassroots Soccer)	Grassroots Soccer	Linking Football with HIV VCT and Treatment
Nonkosi Ndolasi (Dora Nginza, SA)	Gardening Project	Square-metre Gardening
Clinics participating in the Expert Patient Pilot (EPP) Programme	Expert Patients	Successes/Challenges of the EPP Programme

* THE PATA MARKETPLACE *
<ul style="list-style-type: none"> • A SHOWCASE FOR CLINIC ACTIVITIES • EXCHANGE ENTREPRENEURIAL IDEAS • SHARE EXPERIENCES
<p>Additional teams wishing to present on Day 3 in the PATA Marketplace, are welcome to sign up to do so at the Forum.</p>

King George V Hospital	Kwazulu Natal
Osindisweni Hospital	Kwazulu Natal
Umphumulo Hospital	Kwazulu Natal

MISSION: PATA is an organization of individuals dedicated to expanding access to care for children affected and infected with HIV and their families throughout the African continent. PATA values and promotes models of care that address both the medical and psychosocial needs of the child and that offer high quality, integrated, patient-centred, and affordable services. The organization will work collaboratively with healthcare teams, serving as a resource to support achievement of their stated goals. PATA will facilitate the development of local capacity for high quality HIV care through promotion of learning through team work, sharing of experiences, and spreading of good practice.

VISION: The vision of PATA is for all HIV-infected and affected children in Africa to have access by 2015 to comprehensive, high quality health services including ART. PATA believes that this can best be achieved by supporting committed healthcare providers to enhance, expand and extend their work to impact others through a ripple effect in the community (the 'PATA effect').

VALUES: The following values serve as guidelines for our members as we strive toward the attainment of our vision:

Integrity: We will abide by and promote honesty, trustworthiness, openness, and respect for others in all our interactions on behalf of PATA.

Commitment to the Vision: We will demonstrate our commitment by passionately harnessing our efforts to make our vision of quality healthcare for all HIV-affected/infected children a reality.

Professionalism: We will work professionally, be goal-oriented and ensure accountability. We are committed to the professional development of others and will work with care and consideration of our colleagues.

Compassion: We will exhibit compassion in our interactions as we strive toward our goals.

Team work: We are committed to working as a team, enabling, empowering, and encouraging others. We will participate enthusiastically and accept differing opinions respectfully.

FOUNDATION AND PURPOSE: The foundation of PATA lies with the PATA teams – multidisciplinary Treatment Teams of nurses, pharmacists, counsellors and doctors, who work together at clinics across Sub-Saharan Africa to form a community of compassionate and committed individuals who provide treatment and care to children infected with HIV and their families.

The fundamental purpose of PATA is to assist Treatment Teams to improve the quality of healthcare they deliver to their patients.

The principle of PATA lies in the belief that Treatment Teams can best improve themselves, (collectively and individually) and the quality of their work through self-initiated projects in which they have a sense of ownership, responsibility and pride.

PATA is led by David Altschuler, Co-founder of the One to One Children's Fund and Dr. Paul Roux, Paediatrician and Co-founder of the Kidzpositive Family Fund and supported by a Steering Committee of leading thinkers and practitioners in the HIV/AIDS field.

The Steering Committee:

David Altschuler	<i>Chair of One to One Children's Fund, UK</i>
Paul Roux	<i>Paediatrician, School of Child and Adolescent Health, University of Cape Town, SA</i>
Jennifer Altschuler	<i>Consultant Family Psychotherapist, UK</i>
Stephen Rollnick	<i>Professor of Healthcare Communication, UK</i>
Henry Karyaija Barigye	<i>Medical Doctor, Uganda</i>
Sara Stulac	<i>Paediatrician, Partners in Health, Rwanda</i>
James Nuttall	<i>Paediatrician, Red Cross Children's Hospital, SA</i>
Shaffiq M Essajee	<i>Paediatric HIV/AIDS advisor Clinton Foundation, Assistant Professor of Paediatrics Department of Infectious Diseases, USA</i>
Telahun Teka	<i>Paediatrician, Department of Paediatrics and Child Health, Ethiopia</i>
Paul Cromhout	<i>Small Projects Foundation, SA</i>
Robert Gass	<i>UNICEF</i>
Elizabeth Obimbo	<i>Paediatrician, Kenyatta National Hospital, Kenya</i>
Gertrude Gueveya	<i>Nursing Sister, Zimbabwe</i>

PATA believes in the principle of developing sustainable interventions that are linked to, rather than in parallel with the work of government and other partners. PATA works to extend the horizons of care for each of its affiliated clinics by encouraging Treatment Teams to network with each other through annual meetings, a newsletter and the PATA website. This enables PATA teams to share learning and experience and ultimately develop their own visions for healthcare improvement.

PATA also supports Treatment Teams to reach out to neighbouring clinics and other partners to improve quality of care and extend the 'PATA effect' through leadership and mentoring.

For more information about PATA, and to subscribe to the monthly PATA newsletter (available in English and French), please visit our website www.teampata.org or contact the PATA Secretariat.
